Like Everything else in this game... Stable, Well Coded, and Always a worthwhile Purchase ! Go get all the DLC's you will not be sorry !. The Deluxe Edition of Starpoint Gemini Warlords is really great.

The Ingame Soundtrack is just perfect and fits perfect in this game.

The Artbook is nice and shows all Ships, characters etc.

That Starchart is nice too and all Stations can be seen on it, so it's helpfull if u searching for something

The wallpapers come in two diffrent types: Dual Monitor and Single. (and one for Triple)

Overall for 6,99€ it's worth it :). I actually haven't played the game, but this review isn't about the game anyway. The devs are the most supportive devs I've seen so far, and in return I would like to return their kindness with small favor by buying this DLC as the way of expressing my gratitude. We might not get any new in-game content by buying this DLC, but it's at least a good way of giving appreciation for the effort that is put on this game by making the Artwork, OST, etc. valued with our money. Thanks for everything LGM Games and Iceberg Interactive you guys are the best. Keep being awesome!
